## PURPOSE OF COURSE

Provide knowledge and practical experience for team members in creating an Agile organisation. A connected, rapidly innovating and improving organisation.

## WHO SHOULD ENGAGE

Any team member or leader looking to understand and build capability in creating a connected rapidly innovating and improving organisation. People who wish to understand what the world's leading organisations have done to achieve this.

## COURSE OUTCOMES

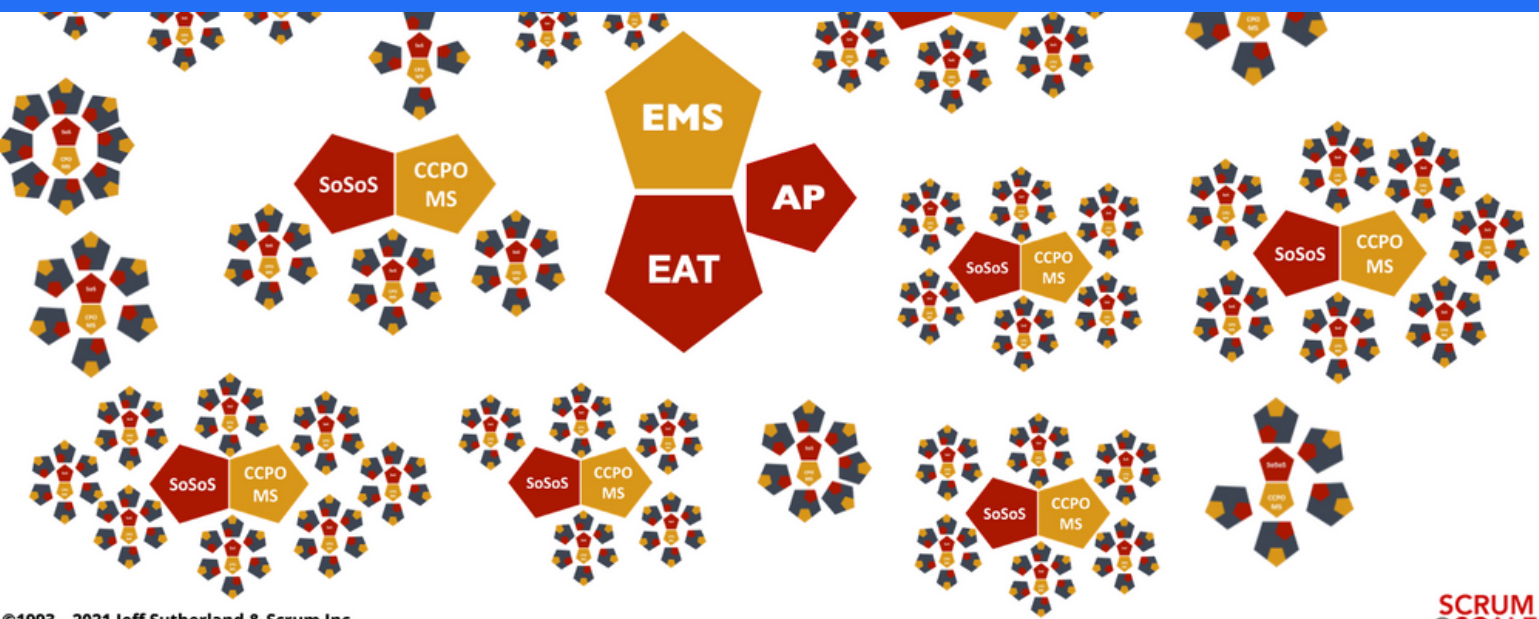

1. Understanding of what Scrum@Scale is and why it works.
2. Introductory knowledge into how to transform a traditional organisation to S@S.
3. Scaling the Scrum Master cycle with practical planning for your organisation.
4. Scaling the Product Owner cycle with practical planning for your organisation.
5. The critical role the senior leaders play with Scrum@Scale and the Agile Practice.
6. Knowledge of differing scales model and a final game plan for your organisation.

## PREREQUISITES AND WORK

Agile Scrum Master or Product Owner certification is a pre requisite. The course's pre-work is to read the current Scrum@Scale Guide, and video provided after registration.

## LEARNING APPROACH AND TIME COMMITMENT

This course can be hosted in person or virtually via Zoom & smart practical online tools. The course runs for two days, typically 8 am to 4 pm. Two half-hour breaks and a central one hour break are provided for learners to rest, eat and catch up on work if needed.
